WHO WE ARE

OUR ACTIVITIES ARE GUIDED BY **5 VALUES:**

Rooted in Canada since 1987 and nurtured by both the generosity of our earth and the energizing effects of our winters, **Arctic Gardens** offers quality products of incomparable freshness inspired by the principles of northern agriculture.

Thanks to our proven preservation and freezing methods, our vegetables retain all their abundant taste and nutrition throughout the year. Ever respectful of our land and our growers, we pay daily tribute to the knowhow and dedication of the north.

KNOWLEDGE

Agricultural expertise on how and when to harvest.

HUMILITY

Mother Nature decides, we must align ourselves with her.

ETHICS

We pay attention to process safety and soil quality to ensure that the vegetable is clean, healthy and safe.

RESILIENCE

We are agile and adapt to events to make our harvests a success.

LOCALITY

Arctic Gardens is proudly established in Canada:

- A large majority of our products are prepared either in Quebec or Ontario.
- More than 80% of our vegetables are harvested in Canada.

OUR COMMITMENT TO SUSTAINABILITY

Because nature is our future, Arctic Gardens continually strives to provide sustainable and environmentally responsible plant-based food solutions that contribute to the well-being of our stakeholders and the environment. Three main pillars support our social responsibility: the planet, food and people.

1. PLANET

We research new ways of growing, processing and selling to preserve the environment.

- We integrated an Environmental Management System (EMS) to all 13 plants.
- We reduced our water consumption from year to year by millions of liters.
- Our growers committed to our Sustainable Agronomic Charter.

2. FOOD

We act to make plant-based food accessible.

- We introduced a range of Tested for Pesticide Residues frozen vegetables.
- We have developed a growing organic vegetable.
- Program that now accounts for almost 3% of our revenue.

3. PEOPLE

We deliver positive economic and social impact.

- We donate yearly millions of vegetable portions to community food banks and people in need.
- We encourage employees to volunteer in their communities through an engaging volunteering program.
